[1] Prior to 2014, the I/DD had two lists: The unserved, which functioned the same as the current wait list, and the underserved list, which included individuals who were found needing I/DD waiver services, but only received partial services. According to representatives from the Kansas Department for Aging and Disability Services, the I/DD Underserved list was eliminated in 2014 upon bringing the HCBS/I/DD services into KanCare. The Federal Centers for Medicare and Medicaid Services (CMS) determined the list was unallowable, as once an individual is added to the waiver, the individual is entitled to waiver services based on individual need.

[2] The Autism Waiver does not currently have a waitlist, however these totals include the number of individuals on the Proposed Recipients list. Those individuals on the Proposed Recipients list are individuals awaiting an assessment.
