HB2091, proponent, written testimony, February 16, 2023

My name is William R. Tetrick. I speak in favor of the bill on behalf of Kansas Sustainable Agriculture District #001, of which I am President.

I think that once passed, this bill will very likely open the door for the District to get help getting started. Getting our project moving is going to open the door for a lot of other groups in other counties. I am very sure that we all share the same desire - improving economic conditions for farmers so that there continue to be good reasons for the younger generation, such as myself, to stick around. The massive federal spending on renewable energy and sustainability gives Kansas an opportunity to help rural communities. Please take advantage of that opportunity.

William R Tetrick
