PATRICK A. PENN, CPT (RET)
85TH DISTRICT

Chairman Tarwater and Members of the House Commerce, Labor, and Economic Development Committee,

I respectfully submitted this proponent testimony to HB2821 to establish in Kansas a regulatory relief committee in the AG's office with an Executive Director and other members serving as advisors.

This bill creates the Kansas Regulatory Relief Division (RRD) within the Attorney General's office which:

1. Reviews state laws and regulations that inhibit creation or success of new companies and gives recommendations to the governor and legislature.
2. Creates a framework to analyze health, safety and financial risk to the well-being of consumers from removing or waiving regulation
3. proposes reciprocity agreements between state
4. Administers the regulatory sandbox (application, reporting requirements etc etc)
5. Cooperates and consults with other agencies that interact with the sandbox programs.

The RRD then also has an Advisory Committee called the "General Regulatory Sandbox Program Advisory Committee" of several appointed members.

Their duty to make recommendations to the RRD.

Thank you for your consideration and support.
