

HB 2504

Proponent

Dear Chairman Proctor and Members of Election Committee,

I am strong proponent of HB 2504. Paper Ballots should be the Gold Standard for all elections including Auditing.

If there was any voting machine hacking or voting machine fraud which we know from expert testimony from the Special Committee on Sept 28th & Sept 29th, 2023 that these machines CAN be programmed for fraud then ballot images are images of fraudulent votes.

Paper ballots are physical proof of the voter's intentions, ballot images can be compromised, again I am a strong proponent of HB 2504.

Thank You,
Denise Meirowsky
Sedgwick County Republican Committeewoman
