

SUPPORT OF HB 2227

To: Mindy Sieve <mindy.sieve@house.ks.gov (785) 296-7663, chair Leo Delperdang and members of the Energy, Utilities and Telecommunications Committee.

My name is Jennifer Connelly and I reside at 3353 N 159th St. E. Wichita, KS 67228. My Senator is Ty Masterson and my Representative is Patrick Penn.

Power Purchase Agreements allow for a greater electrical grid. I am concerned about storms, cyber-attacks and increasing demand brought on by electrification of transportation. When we decentralize, the grid will better adapted to protect us from pending disasters.

We are not ready for the electrification of semi trucks that go 600 miles on one charge. Don't let semi truck drivers pass our state by because we are unable to meet their needs.

Vote yes on HB 2227
