HB 2803

Position: Proponent

Written Testimony – Only

Date of Hearing: March 7, 2024

Jannel Munk

On Behalf of: Individual

Dear Chairman Will Carpenter and Members of the Committee,

I support HB 2803; it is very important to protect our 2nd Amendment right. Federal Government should not be allowed to require Kansas to use their resources to enforce federal gun control against law abiding Kansas Citizens. This is just another act of Federal Government overreach.

HB 2803 will also protect the Kansas Citizens to seek civil penalties if state resources are used in violation of this act.

Sincerely,

Jannel Munk

Lawrence, KS
