Legislators:

We are a small city. We support the agricultural community which as you know is the largest industry in Kansas. The loss of the LAVTR to us was huge! (I have been here long enough to remember when it was funded) Small communities taxing options are minimal. We cannot keep retailers in our towns if we tax them to death.

Ag producers need hairdressers, grocery stores, attorneys and retail stores. We do not want to order our groceries from Amazon.

This tax would help us significantly. Large cities have more revenue sources available to them. Especially because the state had extra funds.

Cindy Holle
City Clerk
