SCR1610

Proponent

Brett Anderson

Republican Precinct Committeeman

Sedgwick County

Chair Tyson and Members of the Senate Assessment & Taxation Committee,

I am submitting my testimony in support of passing SCR1610 favorably out of committee. This resolution would help aid in planning for payments for people on a fixed income as well as every other homeowner. While inflation is pretty much guaranteed from year to year, a big spike in tax payments can be a massive hit to some people. We as a state are taxed enough the way it is. SCR1610 would at least put a cap on the amount of increase that is possible. Again, I urge you to pass SCR1610 favorably out of committee.

Respectfully,

Brett Anderson

Republican Precinct Committeeman

Sedgwick County
