

**Opposition to SB 546
Oral Testimony by Bob North, Chief Counsel
at the Kansas Department of Commerce
Senate Assessment and Taxation
March 19, 9:30 A.M.
Room 548 S**

Thank you for allowing us to testify in strong opposition of SB 546. This bill ends two critical economic development tools, Promoting Employment Across Kansas (PEAK) and the High Performance Incentive Program (HPIP), for the Department of Commerce and the state. Kansas is the number one state for business investment per capita for a second year in a row, because of these two tools and our other economic development programs. This truly continues to be an exciting time for economic development in the state. Ending programs like PEAK and HPIP will crush established Kansas companies, send the wrong message to the business world and jeopardize our thriving economy.

Promoting Employment Across Kansas (PEAK)

The Promoting Employment Across Kansas program is designed to help recruit and retain jobs in Kansas by allowing companies to keep up to 95% of the payroll withholding taxes generated by new employees. In 2023, 28 companies signed new agreements, and we currently have 228 active agreements. With these new 28 agreements, more than 2,200 PEAK jobs are projected to be created, \$132 million direct annual payroll projected and more than \$580 million in capital investment expenditures projected. From the 228 active agreements, more than 33,309 jobs have been created or retained. 53% (17,648) of those jobs have been created or retained from existing companies in the state. Table 1 shows the job creation and retention from this program since 2019.

Table 1: PEAK FY2019-FY2023

PEAK	
Year	Created or Retained Jobs
2019	33,670
2020	39,657
2021	37,141
2022	36,138
2023	33,309

High Performance Incentive Program (HPIP)

The High Performance Incentive Program provides tax incentives to qualifying employers who pay above average wages. HPIP provides a 10% tax credit on the qualified capital investment of

an eligible company. In the five metro counties of Douglas, Johnson, Sedgwick, Shawnee and Wyandotte, the minimum investment threshold to qualify is \$1 million. For all other counties, the investment threshold is \$50,000. The tax credit can be carried forward up to 16 years provided that the company can recertify with HPIP. Beginning with credits earned in 2021, the qualifying companies can sell or transfer up to 50% of the HPIP tax credit to any individual or entity. Table 2 shows the number of HPIP certifications and recertifications as well as capital investment since 2019.

Table 2: HPIP FY2019-FY2023

HPIP					
	FY19	FY20	FY21	FY22	FY23
Initial Project Certifications	52	35	36	72	63
Certifications Issued (incl. recertification)	304	304	280	343	357
Total Estimated Capital Investment	\$2B	\$2.1B	\$4.4B	\$4.9B	\$7.2B

Ending these two successful programs will significantly limit our efforts to recruit and retain businesses in the state. One of the common misconceptions is that PEAK and HPIP primarily support only new businesses. Existing company expansions account for more than half of our PEAK agreements. In the PEAK list at the end of the testimony, you will find the details regarding these 125 existing expansions and the 103 other agreements. In Table 3, you will see the number of existing expansion projects that are earning PEAK benefits. Additionally, Table 4 shows the details for the Kansas companies with existing PEAK agreements. More than 50% of the PEAK created or retained jobs is from existing companies expanding in the state.

Table 3. PEAK Agreements in FY2023

PEAK Agreement Type	Total Number of Agreements
Existing Expansion	125
New Location-Start Up	25
New Location-Out of State Expansion	27
Relocation	51
	228

Table 4. PEAK Active Agreements for Existing Expansions in FY2023

PEAK Agreement Type	Number of Existing Employees	Projected New Jobs
Existing Expansion	32,514	17,648

Additionally, both PEAK and HPIP are utilized across the state. Given their populations, the state’s metro areas have the most companies earning benefits from these programs. However, the PEAK program is utilized in 34% of the counties in Kansas and HPIP is utilized in 61% of counties. Table 5 and Table 6 provide these details.

Table 5: Number of PEAK agreements by county and agreement type in FY2023

County	Number of Agreements	Existing Expansion	New Location-Start Up	New Location-Out of State Expansion	Relocation

40 states have economic development tools similar to both PEAK and HPIP. These programs have different names, but the objectives and eligibility requirements are designed in the same way as PEAK and HPIP. Abruptly ending these two programs will take Kansas from one of the leading states in economic development to the bottom of the pack. Not only will new businesses not want to come to the state, but our established companies will also look to grow their operations outside of Kansas.

Furthermore, these program agreements can span across 5, 10 and 16 years with the companies having to meet the qualifications over time to earn the benefits. Retroactively cancelling contractual agreements would not only have a negative impact on the state's credit ratings but also on our creditability resulting in legal action taken against the state.

Our state's economy is trending in the right direction. Eliminating economic tools that are benefiting both existing companies and new businesses would immediately stop this momentum. To continue to thrive, we must continue to support PEAK and HPIP. We urge the committee to oppose SB 546.

2023 PEAK AGREEMENTS

An asterisk (*) indicates that the agreement was signed in 2023.

COUNTY	COMPANY NAME	AGREEMENT TYPE	AGREEMENT STATUS	NAICS INDUSTRY
Allen	B & W Custom Truck Beds, Inc.	Existing Expansion	Active	Other Motor Vehicle Parts Manufacturing
Atchison	Integrity Reinforcing Bar, Inc.	New Location-Start Up	Active	Fabricated Structural Metal Manufacturing
Atchison	MGPI Processing, Inc.	Existing Expansion	Active	Other Food Manufacturing
Brown	Fairview Mills, LLC	Existing Expansion	Active	Dog and Cat Food Manufacturing
Brown	Schenck Process, LLC	Existing Expansion	Active	Conveyor and Conveying Equipment Manufacturing
Butler	Dynamic N/C, LLC	Existing Expansion	Active	Other Aircraft Parts and Auxiliary Equipment Manufacturing
Cherokee	KMT Waterjet Systems, Inc.	Relocation	Active	Fluid Power Pump and Motor Manufacturing
