SB283

Proponent

Brett Anderson

Republican Precinct Committeeman

Sedgwick County

Chair Warren and Members of the Senate Judiciary Committee,

I am submitting my testimony in support of passing SB283 favorably out of committee. With the state of the country, this bill would protect the land in our own backyard. Foreign entities that are not aligned with us should in no way be able to purchase our land. No way, no how, not at any cost. This is a matter of state and national security. Our land should be protected at all costs. This is a nice place to start. Again, I urge you to pass SB283 favorably out of committee.

Respectfully,

Brett Anderson

Republican Precinct Committeeman

Sedgwick County
