11905 Mohawk Lane
Leawood, KS 66209

I am a proponent of SB284 titled the Blind Information Access Act.

I live in Johnson County district 3.

I am only submitting written testimony.

I have been a user of Newsline for probably 20 years. I read the Kansas City Star, Toastmasters magazine, Blindness specific magazines and anything tickling my fancy. I also read the Target store circular. At Christmas time other store circulars are provided.

I have the TV listings set for Spectrum. I am able to quickly navigate my desired programs because I have saved a favorites list. If there is something said about the particular program it is read for me.

If there are any weather alerts they are also read.

I now have a hearing problem and can modify the speed and pitch of the voice which is very helpful.

I am also able to access Newsline on my iPhone as well as my home phone.
