sqlmap[®]

Automatic SQL injection and database takeover tool

; Introduction();--

sqlmap is an open source penetration testing tool that automates the process of detecting and exploiting SQL injection flaws and taking over of database servers. It comes with a powerful detection engine, many niche features for the ultimate penetration tester and a broad range of switches lasting from database fingerprinting, over data fetching from the database, to accessing the underlying file system and executing commands on the operating system via out-of-band connections.

The image is a screenshot of a web browser displaying the Federal Voting Assistance Program (FVAP) website. The browser's address bar shows the URL <https://www.fvap.gov>. The website header includes the FVAP logo, the text "FVAP.GOV FEDERAL VOTING ASSISTANCE PROGRAM", and a navigation menu with links for "Military Voter", "Overseas Citizen Voter", "Voting Assistance Officer", "Election Official", and "General Information". A search bar is located in the top right corner with the placeholder text "Looking for something?".

The main content area features a large blue banner with the following text:

MILITARY AND OVERSEAS CITIZENS CAN VOTE NOW.

If you haven't received your requested ballot, fill out the Federal Write-in Absentee Ballot (FWAB)

[Fill out the FWAB →](#)

If you haven't requested an absentee ballot yet, [click here.](#)

21 Days until the November 03 General Election

Looking for something specific? Select your state to:

On the left side of the browser window, there are social media icons for Facebook, Twitter, and LinkedIn. On the right side, there is a "Feedback" button. A large, semi-transparent watermark "Mark" is overlaid diagonally across the center of the page.

Iranian Whistleblower exploiting military ballots (Unverified)

The screenshot shows the FVAP.gov website in a Mozilla Firefox browser. The page title is "FVAP.gov - Mozilla Firefox" and the address bar shows "https://www.fvap.gov/2/web/additional-usa". The website header includes the FVAP.gov logo and the text "Voting assistance for Service members, their families and overseas citizens". A search bar is present with the text "Looking for something?" and a "Search" button. The navigation menu includes "Military Voter", "Overseas Citizen Voter", "Voting Assistance Officer", "Election Official", and "General Information". The current page is "Absentee Ballot Classification" for the state of Alaska. The form asks the user to select their voting classification, with options: "Member of the Uniformed Services or Merchant Marine on active duty", "Spouse or dependent of a member of the Uniformed Services or Merchant Marine on active duty", "U.S. citizen living outside the country, and I intend to return", "U.S. citizen living outside the country, and my intent to return is uncertain", and "U.S. citizen living outside the country, and I have never lived in the United States". The "Next" button is highlighted. The footer contains links for "Military Voter", "Overseas Citizen Voter", "Voting Assistance Officer", "Election Official", and "General Information".

Iranian Whistleblower exploiting military ballots (Unverified)

Collin County, TX – Voter list inconsistencies

Here is another example from Collin County where the State added four voters sometime between May 3, 2022 and June 10, 2022. Where did these names come from?

The names have been redacted for privacy. But can be shared with legislators.

35814	3/1/2022		248		3/1/2022		248

left column was 03 May - 2 months after the primary

right side is June 10th

this is a list of voters who voted.

The state has 2 instances of [redacted] and [redacted] in 2 different precincts - this is possible given name statistics, especially since their VUID are different - but it's the 4 names added that is a problem.

But why were these names:

[redacted]

added to the list of voters sometime between may and june?

if they really voted why were they not there 10 days after the election

if they did not vote why were they added?

Figure 2 comparing 5/3 to 6/10 for the March Primary – 2 duplicates but that might be OK, as it may be possible with suffixes, but there were also 4 names added over 2 months after the election.

Galveston County, TX – Voter list inconsistencies

And this issue does not just occur in Collin County.

Here is a chart from Galveston County. This chart was downloaded from the SOS website on July 2, 2022, and July 24, 2022 (four months after the primary). Notice that there are 2 votes removed from the Official Election Day Voting Information.

Figure 3 – This is 4 months after the election. 2 votes were removed from the OFFICIAL Election Day Voting Information.

The election numbers should be a fixed set of names and VUIDs **at the time of certification**. Why are numbers and names changing months after the election? And who is doing this? Is there something in the system that makes these changes?

These data changes do not appear to be happening at the county level. So what is happening at the State level? The SOS website has a disclaimer that says that they do not alter or modify data provided by the county.

Disclaimer: All information displayed is provided by county election officials. The Office of the Secretary of State does not alter or modify the data provided in any way. For questions related to this information, please contact the appropriate [county election official](#)

According to the above disclaimer, the State doesn't alter any information; therefore, there should NOT be changes at the State level that are not happening at the County level.

Brazos County, TX – Unusual increase in registered voters

Brazos County grows to more than 120,000 registered voters, deadline for voter registration Monday

The deadline is coming up fast to vote for the November Election

By Clay Falls

Published: Oct. 2, 2020 at 7:01 PM CDT

BRYAN, Texas (KBTX) - If you want to vote in the November election and haven't registered yet you're running out of time.

The deadline is Monday, October 5.

Brazos County now has a new record of more than 120,000 registered voters. Elections Administrator Trudy Hancock said Friday they've seen thousands of new voters added in recent weeks. The deadline to register is Monday and you'll need to know your driver's license number or the last four digits of your social security number. You don't have to present an ID to register.

"Every year we see people show up to the polls wanting to cast a ballot and they can't because they haven't registered and that's why it's very important to register before Monday," said David Hilburn, Chair of the Republican Party of Brazos County. He said their office is getting lots of calls.

"It's been a big uptick of people registering and whether that's just because of the presidential year or whether it's because of this specific election I don't know. You know as our population grows, it's natural to get people to move in. The numbers are going to go up," Hilburn added.

ESSVR is ES&S

ESSVR, LLC

11128 John Galt Blvd, Suite 200 • Omaha, NE 68137 • P: 402.970.1100

October 19, 2017

Dear ES&S Voter Registration Customer:

Effective October 1, 2017, we completed an internal business reorganization in which ES&S' voter registration operations have been consolidated into a single business division. The consolidation of ES&S' voter registration operations allows us to streamline and better align our resources all in an effort to provide more effective and efficient service to our voter registration customers.

Pursuant to this consolidation, we have created a new entity for our entire voter registration operations, "ESSVR, LLC". We believe this name more accurately reflects the business of providing voter registration products and services to our voter registration customers. We have also enclosed a Form W-9 for your records that contains the tax identification number of ESSVR. We request that you remit all future payments of invoices to the following:

ESSVR, LLC
11128 John Galt Blvd., Suite 200
Omaha, NE 68137

We greatly appreciate your business and look forward to continuing to provide you with products and services to support your voter registration business needs. Thank you.

Sincerely,

Victor Williams
Vice President and General Manager,
ESSVR, LLC

NBC News asked the two other major manufacturers how many of their tabulators with modems were currently in use. Hart said that it has approximately 1,600 such tabulators in use in 11 counties in Michigan. Dominion did not respond to numerous requests from NBC News for their sales numbers.

'Vulnerable to hacking'

With the 2020 presidential election only ten months away, Appel and Skoglund believe all modems can and should be removed from election systems.

“Modems in voting machines are a bad idea,” said Appel. “Those modems that ES&S [and other manufacturers] are putting in their voting machines are network connections, and that leaves them vulnerable to hacking by anybody who can connect to that network.”

POLITICS

Modems removed from voting machines in five N.C. counties

DAVID N. BASS

DECEMBER 15, 2021

The Key Objectives for this report were answered by this examination:

1. To determine whether D-Suite-implemented security requirements comply with the 2002 Voting System Standards (VSS)
 - a. Uncertified software was used on the system rendering the certification of the entire system and all elections conducted with it, Invalid.
 - b. Security protections required by law were almost completely absent
 - i. Other than a userID and an easily guessed or bypassed password, no authentication was required
 - ii. The firewall rule for access to the election database, ballots and results was unrestricted to any IP address in the world
 - iii. Together with the firewall rule, Microsoft SQL Server Management Studio (SSMS) enabled complete access to the entire election databases – not just to the 2020 election but to the elections of June 2019 through May 25, 2021.
 - iv. A self-signed encryption certificate was used introducing the potential for a man-in-the-middle attack
 - v. Thirty-five wireless devices (802.11, Wi-Fi) were installed inside election equipment and an additional wireless device was identified in a connected printer
 - vi. Any or all of these wireless devices could have connected to the Internet via the building wireless facilities
 - vii. “Purging” (deletion) of critical Audit Log data, as specified by DVS and directed by the Secretary of State⁷⁵, destroyed all records of connection to the Internet or elsewhere, all record of user activity, including programs run by these users, errors, and any record of the addition or deletion of votes and the alteration of election results.
 - c. **EACH of the compliance failures identified in 1.a. and 1.b. above are clear violations of the law.**

“We pay to have our system penetration tested, hacked, basically, to find out are there weaknesses and what can we do to, to fix those weaknesses, right, to make it less hackable.”

Pete Lichtenheld

Senior Vice President of Customer Success at Hart InterCivic

“And I'll fully admit and anyone who says something's not hackable is a fool, so anything can be hacked, right? but it takes access to the thing, knowledge, and mostly time.”

ACCURATE. RELIABLE. TRANSPARENT.

**DOMINION
SECURE**

Dominion Voting Systems is committed to ensuring the security of elections.

We utilize both voluntary and compulsory testing on every one of our systems as part of company and federal/state certification processes. Our Democracy Suite products have been tested and certified by the U.S. Election Assistance Commission (EAC) in accordance with federal Voluntary Voting Systems (VVSG).

**PRODUCT SECURITY
HIGHLIGHTS**

VVSG testing & EAC certification process

Comprehensive, non-alterable audit logs

Secure software development in accordance with federal guidelines for voting systems (VVSG)

Encryption protections

Multi-factor authentication features

Physical security seals and locks

Software independence - producing an auditable, paper record

Full auditing capabilities

OUR SECURITY PROGRAM

A candidate in Georgia who appeared to get few Election Day votes was actually in first place.

The discrepancy in a race for a county-level board of commissioners seat was blamed on a series of technical errors.

 Share full article

The candidate, Michelle Long Spears, was shortchanged by 3,792 votes in the District 2 primary for the Board of Commissioners in DeKalb County, Ga., that was held on May 24, according to newly-certified results released on Friday.

After conducting a [hand count](#) over the Memorial Day weekend and auditing those returns, election officials determined that they had drastically underreported the vote totals for Ms. Spears.

She received [43 percent of the vote](#), not 24 percent, as reported by an [unofficial and incomplete election summary posted on May 25 on the county's website](#). As the top vote-getter, Ms. Spears qualified for a June 21 runoff against the second-place candidate, Lauren Alexander.

“I hope that this never happens to another candidate, in another race ever again,” Ms. Spears said. “It has been a nightmare.”

Election officials attributed the discrepancy to a series of technical and human errors, which they characterized as being isolated to the primary race.

They said that the problems, which they described as a computer programming error, began when a fourth candidate withdrew from the race late — 135 votes were cast for that former candidate. A redistricting error compounded the situation, according to the county.

CHEROKEE COUNTY

Cherokee County Clerk follows up on mixed election results

by: [Jessica Schaer](#)

Posted: Aug 9, 2022 / 06:20 PM CDT

Updated: Aug 9, 2022 / 06:20 PM CDT

CHEROKEE COUNTY, Kans. — We’re learning more on the events that lead to a mix-up in a Cherokee County Commissioner race.

The Cherokee County Clerk says an audit was done this past Friday and officials noticed a discrepancy that showed the numbers were correct, they were just under the wrong candidate. Image prints on the thumb drive for “County Commissioner District One” switched the numbers for incumbent Myra Frazier, and challenger Lance Nichols. A full hand re-count was done twice to ensure the accurate results of the vote and found Myra Frazier to be the true winner of the race.

The election software company has taken full responsibility for the error. The County Clerk just wants to ensure voters their vote will always count.

“I want to be as transparent as I can possibly be to the citizens of Cherokee County. And, I don’t want them to ever have to think that there’s anything to worry about when it comes to elections in this office,” said Rebecca Brassart, Cherokee County Clerk.

The County Clerk is now going through all of the thumb drives to make sure all the other races in the county and at the state-level are correct.

Forensic Examination and Analysis Report

CONFIDENTIAL

The screenshot shows the SQL Server Enterprise Edition interface. The top window displays the query execution progress bar. The Object Explorer on the left shows the server instance 'EMSSERVER (SQL Server 13.0.4001.0 - EMSSERVER:emsadmin)'. The right pane shows the query results for the 'USE [2020 Mesa County General-2020-09-05-10-20]' database. The query is a simple SELECT statement: `SELECT 'Return Value' : @return_value`. The results pane shows a single row with the value '0' in the 'Return Value' column.

choiceId	choiceName
1	Joseph R. Biden / Kamala D. Harris
2	Donald J. Trump / Michael R. Pence
3	Don Blankenship / William Mohr
4	Bill Hammons / Eric Bodenstab
5	Howie Hawkins / Angie Nicole Walker
6	Blake Huber / Frank Atwood
7	Jo Jorgensen / Jeremy "Spike" Cohen
8	Brian Carroll / Anar Patel
9	Mark Charles / Adrian Wallace
10	Phil Collins / Billy Joe Parker
11	Roque "Rocky" De La Fuente / Darcy G. Richer

The screenshot shows a query result table in the SQLPro MSSQL app. The table is titled "dbo._ChoiceVotes" and has two columns: "choiceName" and "votes". The data is as follows:

	choiceName	votes
23	Donald J. Trump / Michael R. Pence	56894
24	Gloria La Riva / Sunil Freeman	15
25	Howie Hawkins / Angela Nicole W...	188
26	Jane A. Quimby	5
27	Jane A. Quimby	5
28	Janet Rowland	55889
29	Janice Rich	30773

atsec information security

November 18, 2014

Conclusions

While the 4.14.A.1 build of the Democracy Voting System proved to mitigate four previously enumerated vulnerabilities, multiple medium and high vulnerabilities still exist within the suite of systems. A remote user could leverage most of the vulnerabilities across the network to obtain information about the system, voter ballots and results, or gain remote access to the system.

If remote access is gained, recovery of user credentials through system memory (RAM) analysis could be executed and used to modify the backend database of the EMS Server.

Scytl: how a Barcelona-based company transformed the global elections industry in just 15 years

Jaime Novoa - September 8, 2015

ABOUT SOE SOFTWARE

SOE Software, a Scytl company, has developed Clarity a suite of 8 software modules that allow election authorities to be more efficient and transparent in their management of elections and in their communications with citizens and media. Over 900 jurisdictions in 26 states across the United States, including 14 state-wide customers, currently use SOE Software solutions in their electoral processes. More information is available at www.software.com.

Group asks BI: Stop Smartmatic, Comelec people from leaving PHL

By VIRGIL LOPEZ, GMA News

Published June 4, 2016 3:49pm

A poll watchdog group has asked the Bureau of Immigration (BI) to prevent 10 people from leaving the country for their alleged role in the controversial script change in the Comelec transparency server that receives precinct-level votes.

In a letter dated June 2, election watchdog "Mata sa Balota" urged BI Commissioner Ronaldo Geron to issue a hold departure order (HDO) against the following personalities:

advertisement

- Cesar Flores -Smartmatic-TIM president for Southeast Asia
- Heider Garcia- Smartmatic official
- Marlon Garcia - Smartmatic Philippines project manager
- Elie Moreno - Smartmatic project director
- Neil Banigued- Smartmatic technical support member
- Mauricio Herrera - Smartmatic technical support member
- Andres Kapunan- Smartmatic Mindanao
- Rouie Peñalba- Comelec IT personnel
- Nelson Herrera - Comelec IT personnel
- Frances Mae Gonzales- Comelec IT personnel

The group said these people are facing several criminal and administrative complaints filed before the Office of the Ombudsman, Manila Prosecutor's Office. They are also under investigation by the Comelec.

Tarrant County hires second elections administrator of the year

BY ANNA M. TINSLEY

UPDATED FEBRUARY 02, 2018 1:35 PM

In this short video, find out who can register to vote, where to register, which documents are needed and when you must register by to vote in the next election. BY LENA BLIETZ

Only have a minute? Listen instead

Powered by Trinity Audio

00:00

02:37

1.0x

For the second time this year, Tarrant County will have a new elections administrator.

Heider Garcia, elections manager in Placer County, Calif., has been hired to guide and oversee local elections.

He should join the county in mid-February to observe the March 6 primary election and help out as needed, Tarrant County Judge **Glen Whitley** said.

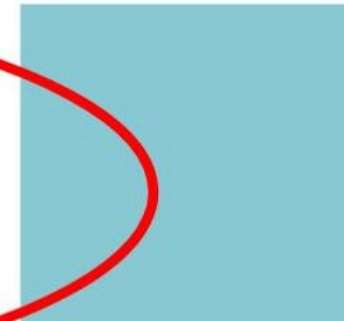

“We think he will be a good fit,” Whitley said.

Garcia will be sworn in as elections administrator after the primary.

The delay is to give him time to become a registered voter in Tarrant County, which Whitley said he must do before he can be sworn in.

He replaces **Nathan Neblett**, a Houston man who held the post for two weeks in January before county officials decided to “release” him from the post.

“We just decided it wasn’t going to be a good fit for us,” Whitley [said at the time](#). “We decided to go in a different direction.”

New voting machines in Tarrant County

September 3, 2019

Tarrant County voters will be casting ballots on new machines for this year's Nov. 5 constitutional amendment election. County Commissioners recently signed off on an \$11 million plan to buy this new equipment, part of Austin-based Hart InterCivic's Verity line.

These machines, approved for use by the Texas Secretary of State's office, include a paper trail.

Voters will use a touchscreen to review the ballot and make their choices. The machine will print a list of the candidates chosen. After reviewing votes on the sheet, voters must put their paper ballot into one of the scanners to formally cast their vote and drop it into the ballot box.

Tarrant County Elections Administrator Heider Garcia has asked the state to allow countywide vote centers — which would let voters cast ballots at any polling place in the county on Election Day — as soon as the November election.

Tarrant GOP Denies County Turned Blue, Makes Trumpian Claims of Irregularities

LAUREN DREWES DANIELS | DECEMBER 1, 2020 | 4:00AM

The Tarrant County GOP is quite agitated the county has been cast as “blue” after the Nov. 3 general election. As mail-in ballots trickled in after Election Day, the seesaw tipped ever so slightly Democratic under the weight of about 1,826 more votes cast for the Biden/Harris ticket than Trump/Pence. It’s not much, but this isn’t horseshoes.

The county hadn’t voted for a Democrat for president since 1964.

Tarrant County's lauded elections chief resigns, citing differences with new county executive

Heider Garcia, like many other election officials across the country, faced death threats that stemmed from lies about the outcome of the 2020 election.

BY NATALIA CONTRERAS, VOTEBEAT AND THE TEXAS TRIBUNE APRIL 17, 2023 1 PM CENTRAL

Elections Administrator

TROY HAVARD
Assistant Elections Administrator

TARRANT COUNTY ELECTIONS ADMINISTRATION

April 16, 2023

The Honorable Tim O' Hare
County Judge
100 East Weatherford St.
Fort Worth, Texas 76196

The Honorable GK Maenius
Tarrant County Administrator
100 East Weatherford St.
Fort Worth, Texas 76196

Gentlemen,

Please accept this letter as my formal resignation from the position of Elections Administrator for Tarrant County. My last day with the County will be June 23, 2023. This will allow sufficient time to complete all work related to the May 6 Joint Elections, any potential runoff elections in June and a smooth handover of the operation. It will be my utmost priority to guarantee operational continuity of the department before my departure.

GK, thank you for your leadership, your support, and your guidance in my time here. You believed in me and provided me all the tools I needed to do my job. I say to you what I said to Judge Glen Whitley when we canvassed the November 2022 election: *"Thank you for your leadership, and for just letting elections officials do their job and stay out of politics. That means the world to us."* When leadership respects the team's values and shows trust, members of the team become the best version of themselves. You know this, Judge Whitley knew it, and because of that, I leave Tarrant County a better man and a better professional. Thank you, GK.

Judge O'Hare, my formula to *"administer a quality transparent election"* stands on respect and zero politics; compromising on these values is not an option for me. You made it clear in our last meeting that your formula is different, thus, my decision to leave. I wish you the best; Tarrant County deserves that you find success.

Sincerely,

Heider Garcia
Elections Administrator
Tarrant County
