

## 2023 Kansas Statutes

**8-2905. Same; operation of a driverless-capable vehicle network.** A person may operate an on-demand driverless-capable vehicle network, with the exception that any provision of K.S.A. 8-2701 et seq., and amendments thereto, that only applies to a conventional human driver would not apply to the operation of a driverless-capable vehicle with the automated driving system engaged on an on-demand driverless-capable vehicle network. An on-demand driverless-capable vehicle network may be used to facilitate the transportation of persons or goods, including, but not limited to, transportation for hire and public transportation. An on-demand driverless-capable vehicle network may connect passengers to driverless-capable vehicles either exclusively or as part of a digital network that also connects passengers to conventional human drivers who provide transportation services, pursuant to K.S.A. 8-2701 et seq., and amendments thereto, or any other applicable laws, in vehicles that are not driverless-capable vehicles.

**History:** L. 2022, ch. 93, § 5; July 1.
