

2023 Kansas Statutes

27-332. Same; transfer of city property and funds to authority; payment of debts on property transferred. (a) All property and any funds belonging to any airport authority previously established by charter ordinance of the city prior to the effective date of this act, and property and funds to which such authority may hereafter be entitled, shall become the property of the authority created pursuant to this act upon the adoption of the provisions of this act, as provided in K.S.A. 27-328. Except as provided in subsection (b), the city shall transfer and convey to such authority, without consideration, any public airport property owned by such city.

(b) Any authority created pursuant to this act, or the act of which this section is amendatory, shall pay to the city an amount equal to any outstanding bonded indebtedness of the city, and interest thereon which is properly attributable to any property transferred under subsection (a), at such time or times as the same becomes due or payable, except that the authority shall not be required to make any such payments prior to maturity without its consent. Such amount shall be paid to the city from revenues produced from the property to which this section applies and no other funds available to the authority may be used for such purpose.
