

2023 Kansas Statutes

74-50,112. Same; prohibiting use of classes or training under SKILL program as basis for financial payments to educational institutions. No out-district state aid entitlement, no credit hour state aid entitlement and no general or other state aid of any kind provided by the state to an educational institution, including appropriations based in whole or in part upon enrollment, shall be based on any course, subject or class of instruction or training which is the subject of an agreement or a project under this act. No such course, subject or class of instruction or training or the persons participating therein shall be counted in determining the number of credit hours of out-district students for purposes of determining the amount of out-district tuition to be charged by an educational institution.

History: L. 1991, ch. 284, § 11; July 1.
