

2023 Kansas Statutes

82a-1416. Same; compliance with permit terms and conditions. When a weather modification permit has been issued, the licensee shall confine the licensee's weather modification activities within the limits of time and area specified in the permit, except to the extent that the limits are modified by the director. The licensee shall also comply with any terms and conditions of the permit as originally issued or as subsequently revised or modified by the director.

History: L. 1974, ch. 321, § 16; L. 1995, ch. 138, § 11; July 1.
