

Representative Kiegerl and members of the Children and Families
Committee:

My name is Michele Wall and I support House Bill 2444. I live at Fort
Riley and my son went to Ware. Last year he was restrained at 11:15am and
I was not called until 3:35pm. I asked for a report and they stated they
did not have to give me one.

I found out later that I was and asked again. I was told it would be too
hard for people to remember what happened. I have had other times he was
restrained and had to ask again for a report. I had an IEP in force that
stated to not touch my son due to a sensory disorder and they still
touched him. I was at my wits end fighting with the school and I now home
school him.

Thank You,

Michele Wall
