

High School Feedback Reports

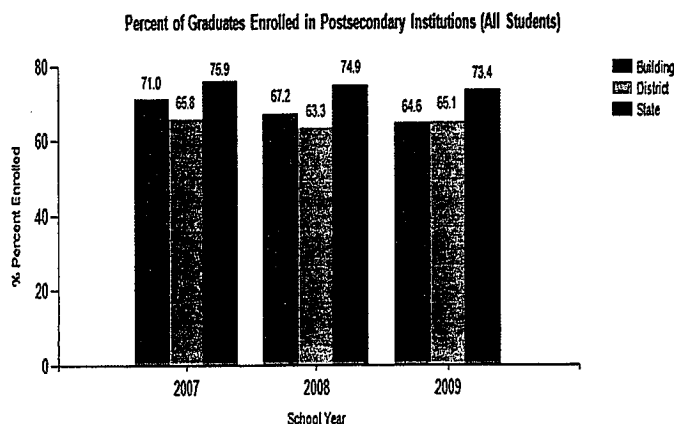

What are the Kansas High School Feedback Reports?

The Kansas High School Feedback Reports were created to provide high schools and districts with information about the success of their former students in postsecondary education and workforce activities. These reports are being provided to high schools and districts across the state free of charge. Production of these reports is funded through the ARRA SLDS grant. The full public release of these reports occurred November 2011.

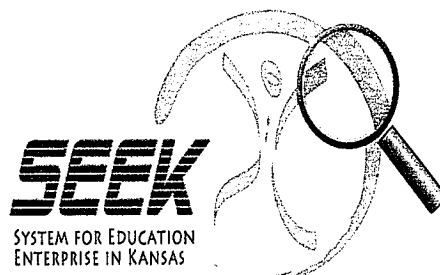

Reports Available Now

There are 5 reports currently available within the High School Feedback Reports. These reports are:

- ACT Scores
- Postsecondary Enrollment Rates
- Postsecondary Enrollment Locations
- Postsecondary Retention Metrics
- Postsecondary Remedial Coursework

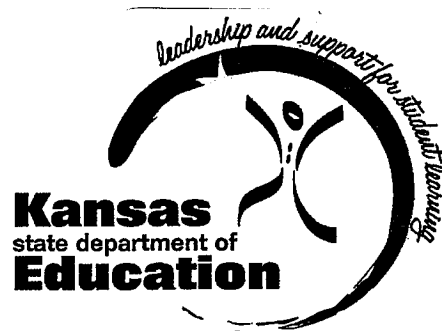

The High School Feedback Reports can be accessed through the SEEK application via KSDE common authentication.

Potential additions to the High School Feedback Reports

- Customizable Reports
- Development of Predictive Analytics
- Development of Cross Indicator Analytics
- Inclusion of State Assessment data
- Inclusion of SAT data
- Inclusion of Advanced Placement (AP) data
