Hi, my name is Dianne Mallari and I am a voter in Topeka, Kansas.

Please support HB 2094 for a Conscientious Exemption to state-mandated vaccinations.

I believe in the parental right to choose what is best for their children. All parents should have informed consent to any medical procedure, including vaccinations. They should then have the freedom of conscience to accept or deny that procedure.

I am a chiropractor that has treated many non-vaccinated children, and their level of health has been on par with, if not superior to, their vaccinated peers. In fact, of the 19 states that permit conscientious exemption to vaccinations, as well as the medical and/or religious exemptions found in all 50 states, there is no relationship between the exemptions and reported diseases in those states.

Please stand up for the rights of all parents to choose what is best for their children.

Thank you,

Dr. Dianne Mallari, D.C
