

To whom this concerns

let children's me that this letter is necessary. To make our law-makers aware of the need for better schools to keep our children safe.

Rhanna was a beautiful, sweet and talented young lady who felt she had no where to seek help from the bullying she was being subjected to at school. So she took her own life.

Please let our children know they can be safe. That there is a law against bullying that will protect them.

Kathy Haggard
