

Dear Senators,

I am writing to urge you to pass Bill 278!

I feel that in this age of computers, e-mail, Facebook ect.. Bullying is at a critical level. It seems there are no real consequences in Kansas for young people today to deter them from these acts.

As a grandparent and legal guardian of a teenager, I'm especially concerned that we as a society do all we can to protect our youth and let them know they are safe at school and **THEIR WILL BE CONSEQUENCES!!** For those who Verbaly , Physically, or Virtually abuse them.
