

SENATE BILL No. 375

By Committee on Natural Resources

2-2

1 AN ACT concerning solid waste; relating to permit exemptions; amending
2 K.S.A. 2011 Supp. 65-3407c and repealing the existing section.

3
4 *Be it enacted by the Legislature of the State of Kansas:*

5 Section 1. K.S.A. 2011 Supp. 65-3407c is hereby amended to read as
6 follows: 65-3407c. (a) The secretary may authorize persons to carry out
7 the following activities without a solid waste permit issued pursuant to
8 K.S.A. 65-3407, and amendments thereto:

9 (1) Dispose of solid waste at a site where the waste has been
10 accumulated or illegally dumped. Disposal of some or all such waste must
11 be identified as an integral part of a site cleanup and closure plan
12 submitted to the department by the person responsible for the site. No
13 additional waste may be brought to the site following the department's
14 approval of the site cleanup and closure plan.

15 (2) Perform temporary projects to remediate soils contaminated by
16 organic constituents capable of being reduced in concentration by
17 biodegradation processes or volatilization, or both. Soil to be treated may
18 be generated on-site or off-site. A project operating plan and a site closure
19 plan must be submitted to the department as part of the project approval
20 process.

21 (3) Dispose of demolition waste resulting from demolition of an
22 entire building or structure if such waste is disposed of at, adjacent to or
23 near the site where the building or structure was located. Prior to the
24 department's authorization, written approval for the disposal must be
25 obtained from the landowner and the local governmental or zoning
26 authority having jurisdiction over the disposal site. The disposal area must
27 be covered with a minimum of two feet of soil and seeded, rocked or
28 paved. The final grades for the disposal site must be compatible with and
29 not detract from the appearance of adjacent properties. In addition to the
30 factors listed in subsection (b), the secretary shall consider the following
31 when evaluating requests for off-site disposal of demolition waste:

32 (A) Public safety concerns associated with the building or structure
33 proposed to be demolished.

34 (B) Proposed plans to redevelop the building site which would be
35 impacted by on-site disposal of debris.

36 (C) The disposal capacity of any nearby permitted landfill.

Senator Abrams
Balloon Amendments for SB 375
February 15, 2012
Prepared by Tamara Lawrence
Office of the Revisor of Statutes

1 (4) Dispose of solid waste generated as a result of a transportation
 2 accident if such waste is disposed of on property adjacent to or near the
 3 accident site. Prior to the department's authorization, written approval for
 4 the disposal must be obtained from the landowner and the local
 5 governmental or zoning authority having jurisdiction over the disposal
 6 site. A closure plan must be submitted to the department as part of the
 7 authorization process.

8 (5) Dispose of whole unprocessed livestock carcasses on property at,
 9 adjacent or near where the animals died if: (A) Such animals died as a
 10 result of a natural disaster or their presence has created an emergency
 11 situation; and (B) proper procedures are followed to minimize threats to
 12 human health and the environment. Prior to the department's authorization,
 13 written approval for the disposal must be obtained from the landowner and
 14 the local governmental or zoning authority having jurisdiction over the
 15 disposal site.

16 (6) Dispose of solid waste resulting from natural disasters, such as
 17 storms, tornadoes, floods and fires, or other such emergencies, when a
 18 request for disposal is made by the local governmental authority having
 19 jurisdiction over the area. Authorization shall be granted by the department
 20 only when failure to act quickly could jeopardize human health or the
 21 environment. Prior to the department's authorization, written approval for
 22 the disposal must be obtained from the landowner and the local
 23 governmental or zoning authority having jurisdiction over the disposal
 24 site. The local governmental authority must agree to provide proper
 25 closure and postclosure maintenance of the disposal site as a condition of
 26 authorization.

27 (7) Store solid waste resulting from natural disasters, such as storms,
 28 tornadoes, floods and fires, or other such emergencies, at temporary waste
 29 transfer sites, when a request for storage is made by the local
 30 governmental authority having jurisdiction over the area. Authorization
 31 shall be granted by the department only when failure to act quickly could
 32 jeopardize human health or the environment. Prior to the department's
 33 authorization, written approval for the storage must be obtained from the
 34 landowner and the local governmental or zoning authority having
 35 jurisdiction over the storage site. The local governmental authority must
 36 agree to provide proper closure of the storage and transfer site as a
 37 condition of authorization.

38 (8) Dispose of drilling fluids and solids generated from drilling
 39 activities associated with oil and gas exploration and production by land-
 40 spreading in accordance with best management practices and maximum
 41 loading rates developed by the secretary and published on the department
 42 website. Each separate land-spreading location shall require submission
 43 of an application to land-spread drilling waste, complete with all

For any area that annually receives more than 25 inches of precipitation, as determined by the department, any solid waste disposed of by land spreading shall be incorporated into the soil.

1 information required on the application form developed by the secretary;
2 The contents of the application form shall include, but are not limited to,
3 the land-spreading location, soil characteristics, waste characteristics,
4 waste volumes, land-spreading method and post-land-spreading report. A
5 separate land-spreading application and a post-land-spreading report
6 shall be submitted for each location. The secretary and the Kansas
7 corporation commission shall enter into a memorandum of agreement for
8 the purposes of:
9 (A) Administering the land-spreading application and approval
10 process;
11 (B) monitoring compliance; and
12 (C) establishing mechanisms for enforcement and remedial actions.
13 For the purposes of protecting the health, safety and property of the
14 people of the state, and preventing surface and subsurface water pollution
15 and soil pollution detrimental to public health or to the plant, animal and
16 aquatic life of the state, a land-spreading application may not be approved
17 for the same location unless a minimum of three years has passed since
18 the previous land spreading occurred. A fee of \$250 shall be paid to the
19 Kansas corporation commission with each drilling waste land-spreading
20 application. The fee shall be remitted to the state treasurer in accordance
21 with K.S.A. 75-4215, and amendments thereto, to be credited to the
22 conservation fee fund.
23 (b) The secretary shall consider the following factors when
24 determining eligibility for an exemption to the solid waste permitting
25 requirements under this section:
26 (1) Potential impacts to human health and the environment.
27 (2) Urgency to perform necessary work.
28 (3) Costs and impacts of alternative waste handling methods.
29 (4) Local land use restrictions.
30 (5) Financial resources of responsible parties.
31 (6) Technical feasibility of proposed project.
32 (7) Technical capabilities of persons performing proposed work.
33 (c) The secretary may seek counsel from local government officials
34 prior to exempting activities from solid waste permitting requirements
35 under this section.
36 Sec. 2. K.S.A. 2011 Supp. 65-3407c is hereby repealed.
37 Sec. 3. This act shall take effect and be in force from and after its
38 publication in the statute book.
