Chairman Hayzlett opened the meeting with comments that one of the conferees on **HB 2192** had inadvertently not been heard during the hearing on that bill and wanted to give him the opportunity to be heard today. With that the Chairman recognized James R. Hanni, representing AAA Allied Group. (Attachment #1) Mr. Hanni said the purpose of his testimony was to provide information to the committee. He had attached a National Highway Traffic Safety Administration summary of a study on the relationship between seat belt usage and enforcement laws and fines. Mr. Hanni said the study, released November, 2010, points to primary enforcement seat belt laws and fines as proven countermeasures to raise usage. He said there was a clear correlation between raising fines and higher seat belt usage.

There were no questions from the committee members.

The Chairman advised the committee he wanted to work two bills today, **HB 2034** and **HB 2192**.

Chairman Hayzlett sought discussion and action on **HB 2034**. Staff briefed the committee on the bill.

Representative Worley moved **HB 2034** favorable for passage, seconded by Representative Hildabrand. A vote was taken with 11 members voting in favor of passage. The motion carried.

Chairman Hayzlett sought discussion and action on **HB 2192**. The Chairman had asked staff to prepare an amendment to **HB 2192** to amend the language from the original **HB 2058** into **HB 2192**. The balloon amendment was handed out to the committee. (Attachment #2)
