HOUSE BILL No. 2246

By Representative McCray-Miller

2-9

AN ACT concerning children; relating to paternity thereof.

 Be it enacted by the Legislature of the State of Kansas:

Section 1. (a) Every child born in the state of Kansas shall submit to genetic tests to determine the paternity of such child. Prior to leaving the hospital, the child, mother and alleged father shall submit to genetic tests. If the birth does not occur in a hospital, within 10 days of such child's birth, the child, mother and alleged father shall submit to genetic tests. The tests shall be made by experts qualified as genetic examiners.

- (b) If any party refuses to submit to the tests, a court may resolve the question of paternity against any party or enforce an order if the rights of others and the interests of justice so require.
- (c) The verified written report of the experts shall be considered to be stipulated to by all parties unless written notice of intent to challenge the validity of the report is given to all parties not more than 20 days after receipt of a copy of the report.
- (d) If such notice is given, the experts shall be called by the court as witnesses to testify as to their findings and shall be subject to cross-examination by the parties. Any party may demand that other experts, qualified as genetic examiners, perform independent tests under order of the court, the results of which may be offered in evidence. The number and qualification of the other experts shall be determined by the court.
- (e) If no challenge to such result is made, the genetic test results shall be admissible as evidence of paternity in any civil action without the need for foundation testimony or other proof of authenticity or accuracy.
- (f) As used in this section, "hospital" means the same as in K.S.A. 65-425, and amendments thereto.
- Sec. 2. This act shall take effect and be in force from and after its publication in the statute book.
