5 *Be it enacted by the Legislature of the State of Kansas:*

6 Section 1. K.S.A. 2011 Supp. 74-4921 is hereby amended to read as
7 follows: 74-4921. (1) There is hereby created in the state treasury the
8 Kansas public employees retirement fund. All employee and employer
9 contributions shall be deposited in the state treasury to be credited to the
10 Kansas public employees retirement fund. The fund is a trust fund and
11 shall be used solely for the exclusive purpose of providing benefits to
12 members and member beneficiaries and defraying reasonable expenses of
13 administering the fund. Investment income of the fund shall be added or
14 credited to the fund as provided by law. All benefits payable under the
15 system, refund of contributions and overpayments, purchases or
16 investments under the law and expenses in connection with the system
17 unless otherwise provided by law shall be paid from the fund. The director
18 of accounts and reports is authorized to draw warrants on the state
19 treasurer and against such fund upon the filing in the director's office of
20 proper vouchers executed by the chairperson or the executive director of
21 the board. As an alternative, payments from the fund may be made by
22 credits to the accounts of recipients of payments in banks, savings and loan
23 associations and credit unions. A payment shall be so made only upon the
24 written authorization and direction of the recipient of payment and upon
25 receipt of such authorization such payments shall be made in accordance
26 therewith. Orders for payment of such claims may be contained on (a) a
27 letter, memorandum, telegram, computer printout or similar writing, or (b)
28 any form of communication, other than voice, which is registered upon
29 magnetic tape, disc or any other medium designed to capture and contain
30 in durable form conventional signals used for the electronic
31 communication of messages.

32 (2) The board shall have the responsibility for the management of the
33 fund and shall discharge the board's duties with respect to the fund solely
34 in the interests of the members and beneficiaries of the system for the
35 exclusive purpose of providing benefits to members and such member's

1 beneficiaries and defraying reasonable expenses of administering the fund
2 and shall invest and reinvest moneys in the fund and acquire, retain,
3 manage, including the exercise of any voting rights and disposal of
4 investments of the fund within the limitations and according to the powers,
5 duties and purposes as prescribed by this section.

6 (3) Moneys in the fund shall be invested and reinvested to achieve the
7 investment objective which is preservation of the fund to provide benefits
8 to members and member beneficiaries, as provided by law and accordingly
9 providing that the moneys are as productive as possible, subject to the
10 standards set forth in this act. No moneys in the fund shall be invested or
11 reinvested if the sole or primary investment objective is for economic
12 development or social purposes or objectives.

13 (4) In investing and reinvesting moneys in the fund and in acquiring,
14 retaining, managing and disposing of investments of the fund, the board
15 shall exercise the judgment, care, skill, prudence and diligence under the
16 circumstances then prevailing, which persons of prudence, discretion and
17 intelligence acting in a like capacity and familiar with such matters would
18 use in the conduct of an enterprise of like character and with like aims by
19 diversifying the investments of the fund so as to minimize the risk of large
20 losses, unless under the circumstances it is clearly prudent not to do so,
21 and not in regard to speculation but in regard to the permanent disposition
22 of similar funds, considering the probable income as well as the probable
23 safety of their capital.

24 (5) Notwithstanding subsection (4): (a) Total investments in common
25 stock may be made in the amount of up to 60% of the total book value of
26 the fund;

27 (b) the board may invest or reinvest moneys of the fund in alternative
28 investments if the following conditions are satisfied:

29 (i) The total of the annual *net commitment to alternative investment*
30 *investments* does not exceed ~~more than 1%~~ 5% of the total market value of
31 investment assets of the fund as measured from the end of the preceding
32 calendar year;

33 (ii) if in addition to the system, there are at least two other
34 ~~sophisticated investors~~ *qualified institutional buyers*, as defined by section
35 ~~301 of the (a)(1)(i) of rule 144A, securities and exchange act of 1933;~~

36 (iii) the system's share in any individual alternative investment is
37 limited to an investment representing not more than 20% of any such
38 individual alternative investment;

39 (iv) the system has received a favorable and appropriate
40 recommendation from a qualified, independent expert in investment
41 management or analysis in that particular type of alternative investment;

42 (v) the alternative investment is consistent with the system's
43 investment policies and objectives as provided in subsection (6);

1 (vi) the individual alternative investment does not exceed more than
2 2.5% of the total alternative investments made under this subsection. If the
3 alternative investment is made pursuant to participation by the system in a
4 multi-investor pool, the 2.5% limitation contained in this subsection is
5 applied to the underlying individual assets of such pool and not to
6 investment in the pool itself. The total of such alternative investments
7 made pursuant to participation by the system in any one individual multi-
8 investor pool shall not exceed more than 20% of the total of alternative
9 investments made by the system pursuant to this subsection. Nothing in
10 this subsection requires the board to liquidate or sell the system's holdings
11 in any alternative investments made pursuant to participation by the
12 system in any one individual multi-investor pool held by the system on the
13 effective date of this act, unless such liquidation or sale would be in the
14 best interest of the members and beneficiaries of the system and be
15 prudent under the standards contained in this section. The 20% limitation
16 contained in this subsection shall not have been violated if the total of such
17 investment in any one individual multi-investor pool exceeds 20% of the
18 total alternative investments of the fund as a result of market forces acting
19 to increase the value of such a multi-investor pool relative to the rest of the
20 system's alternative investments; however, the board shall not invest or
21 reinvest any moneys of the fund in any such individual multi-investor pool
22 until the value of such individual multi-investor pool is less than 20% of
23 the total alternative investments of the fund;

24 (vii) the board has received and considered the investment manager's
25 due diligence findings submitted to the board as required by subsection (6)
26 (c); ~~and~~

27 (viii) prior to the time the alternative investment is made, the system
28 has in place procedures and systems to ensure that the investment is
29 properly monitored and investment performance is accurately measured-;
30 **and**

31 **(ix) the total of alternative investments does not exceed 25%-**
32 **{15%} of the total investment assets of the fund.**

33 For purposes of this act, "alternative investment" ~~means nontraditional~~
34 ~~investments outside the established nationally recognized public stock~~
35 ~~exchanges and government securities market. Alternative investments shall~~
36 ~~include, but not be limited to, private placements, venture capital,~~
37 ~~partnerships, limited partnerships and leveraged buyout partnerships; and~~
38 **includes a broad group of investments that are not one of the**
39 **traditional asset types of public equities, fixed income, cash or real**
40 **estate. Alternative investments are generally made through limited**
41 **partnership or similar structures, are not regularly traded on**
42 **nationally recognized exchanges and thus are relatively illiquid, and**
43 **exhibit lower correlations with more liquid asset types such as stocks**

1 **and bonds. Alternative investments generally include, but are not**
2 **limited to, private equity, private credit, hedge funds, infrastructure,**
3 **commodities and other investments which have the characteristics**

16 standards set forth in subsections (4) and (5) the board shall formulate

18 the fund and the acquisition, retention, management and disposition of
19 investments of the fund. Such policies and objectives shall include:

20 (a) Specific asset allocation standards and objectives;

21 (b) establishment of criteria for evaluating the risk versus the

30 curing the default or withdrawal from the investment; and

31 (e) establishment of criteria that would be used as a guideline for
32 determining when no additional add-on investments or reinvestments
33 would be made and when the investment would be liquidated.

34 The board shall review such policies and objectives, make changes
35 considered necessary or desirable and readopt such policies and objectives
36 on an annual basis.

37 (7) The board may enter into contracts with one or more persons
38 whom the board determines to be qualified, whereby the persons undertake
39 to perform the functions specified in subsection (2) to the extent provided
40 in the contract. Performance of functions under contract so entered into
41 shall be paid pursuant to rates fixed by the board subject to provisions of
42 appropriation acts and shall be based on specific contractual fee
43 arrangements. The system shall not pay or reimburse any expenses of

1 persons contracted with pursuant to this subsection, except that after
2 approval of the board, the system may pay approved investment related
3 expenses subject to provisions of appropriation acts. The board shall
4 require that a person contracted with to obtain commercial insurance
5 which provides for errors and omissions coverage for such person in an
6 amount to be specified by the board, provided that such coverage shall be

8 up to a maximum of \$10,000,000. The board shall require a person
9 contracted with to give a fidelity bond in a penal sum as may be fixed by
10 law or, if not so fixed, as may be fixed by the board, with corporate surety
11 authorized to do business in this state. Such persons contracted with the
12 board pursuant to this subsection and any persons contracted with such
13 persons to perform the functions specified in subsection (2) shall be
14 deemed to be agents of the board and the system in the performance of

30 the banks or trust companies for the collection of the principal and interest
31 or other income or of the proceeds of sale. The services provided by the
32 banks or trust companies shall be paid pursuant to rates fixed by the board
33 subject to provisions of appropriation acts.

42 reports establish the requirements and procedure for reporting any and all
43 activity relating to investment functions provided for in this act in order to

1 prepare a record monthly of the investment income and changes made
2 during the preceding month. The record will reflect a detailed summary of
3 investment, reinvestment, purchase, sale and exchange transactions and
4 such other information as the board may consider advisable to reflect a
5 true accounting of the investment activity of the fund.
