

2012 Kansas Statutes

25-4401. Electronic and electromechanical voting systems; definitions. As used in this act unless the context otherwise requires:

(a) "Ballot" may include an electronic display or printed document containing the offices and questions on which voters in a specified voting area are eligible to vote.

(b) "Counting location" means the location in the county selected by the county election officer for the counting of ballots.

(c) "Electronic or electromechanical voting system" means a system of casting votes and tabulating ballots employing automatic tabulating equipment or data processing equipment including a direct recording electronic system.

(d) "Direct recording electronic system" means a system that records votes by means of a ballot display provided with mechanical or electro-optical components that can be activated by the voter, that processes data by means of a computer program, that records voting data and ballot images in memory components, that produces a tabulation of the voting data stored in a removable memory component and as printed copy, and that may also provide a means for transmitting individual ballots or vote totals to a central location for consolidating and reporting results from precincts at the central location.
