

2012 Kansas Statutes

65-1670. Same; duties of the board of pharmacy; duties of qualifying center or clinic. (a) The board of pharmacy shall establish and implement a program consistent with public health and safety through which unused drugs, other than drugs defined as controlled substances, may be transferred from donating entities that elect to participate in the program for the purpose of distributing the unused medications to Kansas residents who are medically indigent.

(b) A qualifying center or clinic in consultation with a pharmacist shall establish procedures necessary to implement the program established by the utilization of unused medications act.

(c) The state board of pharmacy shall provide technical assistance to entities who may wish to participate in the program.

History: L. 2008, ch. 9, § 3; Mar. 27.
