

2012 Kansas Statutes

65-3241. Cooperation between coroner and procurement organization. (a) A coroner shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education.

(b) If a coroner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the coroner and a post-mortem examination is going to be performed, unless the coroner denies recovery in accordance with K.S.A. 2012 Supp. 65-3242, and amendments thereto, the coroner or designee shall conduct a post-mortem examination of the body or the part in a manner and within a period compatible with its preservation for the purposes of the gift.

(c) A part may not be removed from the body of a decedent under the jurisdiction of a coroner for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the coroner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude a coroner from performing the medicolegal investigation upon the body or parts of a decedent under the jurisdiction of the coroner.
