

2012 Kansas Statutes

74-7021. Professional engineers; qualifications for licensure; intern engineer certificate. (a) Minimum qualifications of applicants seeking licensure as professional engineers are the following:

(1) Graduation from a college or university program that is adequate in its preparation of students for the practice of engineering; and

(2) the satisfactory passage of such written examination in the fundamentals of engineering as utilized by the board; and

(3) proof of four years of engineering experience of a character satisfactory to the board, as defined by rules and regulations of the board; and

(4) the satisfactory passage of such examination in professional practice as utilized by the board.

(b) The board may issue an intern engineer certificate to a person who meets the education and examination qualifications prescribed by the board.
