## **Equipment**

Douglas County is a paper ballot based county, each polling place has at minimum 1 precinct tabulator, 1 ADA accessible ballot marking device, poll booths and paper ballots. Advance ballots are tabulated using a central scanner. A polling place may have multiple precincts and parts in that facility. Ballots are color-coded for distribution in these polling places. The county builds, programs, and tests its own ballots, therefore reducing any costs for ballot preparation. A third party, Lockwood Printing in Atchison, KS, prints ballots. Ballots are printed based off a statistical formula for projected turnout which reduces the number of ballots printed in smaller elections. A central ballot-on-demand (BOD) printer is used to print advance ballots and as a back-up in case of ballot shortages.

## **Elections Costs**

### **Fixed Costs**

Costs associated with permanent staff, service maintenance agreements for equipment, benefits, storage, and other annual costs are part of every election regardless of when it is held. The fixed costs for Douglas County are approximately \$50,900 per election

### **Additional Costs**

With each election there are additional costs which fluctuate depending on the size and complexity of the election, these costs include: ballots, envelopes, supplies, forms, temporary staff, poll workers, equipment delivery, training, polling places, mailing and postage, and other incidentals. The following is a breakdown of election costs minus the fixed costs.

<u>Election</u>	<u>Additional Cost</u>	<u>Turnout</u>	<u>Approximate Cost per Voter</u>
