Chairman Arlen Siegfroid and Committee Members  
House Federal and State Affairs Committee  
Kansas House of Representatives  
RE: HB 2324 – Pro-Life Heartbeat Protection Bill

Hon. Chair and Committee Members,

I am writing in support of HB 2324 – Pro-Life Heartbeat Protection Bill, which is before your committee for hearing. As a mother of five children, a strong pro-life Christian and a lifetime resident of Kansas, I want to thank you for considering this important legislation and your service in the Kansas House of Representatives.

I like this bill because it is so straight forward. A heartbeat. How simple. Whether determining the beginning or end of life, a heartbeat is a viable measure for both. If passed, HB 2324 would save about 85% of the babies that are currently being aborted in Kansas. That would be amazing.

Please support HB 2324 – Pro-Life Heartbeat Protection Bill in committee and please send this important bill on to the full House for action.

Sincerely,

*Gail Klaassen*
