

Kansas

September '12

AT&T is investing in our Kansas communications networks, our people and local communities—all of which contribute to the state's economy and quality of life.

Employment

AT&T employed **1,713 people working in Kansas** as of first quarter 2012, and our **payroll represented more than \$130 million** in 2011. As of May 2012, we operate **18 company-owned retail locations** in the state.

Building for Tomorrow

Across the country, we're investing billions to build the advanced networks that will create jobs and fuel economic growth. From 2008 through 2011, AT&T **invested more than \$775 million** in its Kansas wireless and wireline networks. We also offer our advanced Internet Protocol TV service, AT&T U-verse® TV,¹ in Kansas.

Local Support

In 2010, AT&T operations in Kansas generated **more than \$140 million in local and state taxes**. These taxes, paid by AT&T or remitted on behalf of our employees and customers, help support vital programs.

Spending Where We Live

AT&T spent **more than \$631 million on goods and services** purchased from suppliers based in Kansas in 2011. This spending supports jobs and economic activity in the state.

Environmental Impact

We are committed to operating in a way that increases our efficiency and minimizes our impact on the environment. For example, as of December 2011, we operated **55 alternative-fuel vehicles** in Kansas. And in 2011, we **invested \$1,602,239 in 58 energy-efficiency projects** in the state, resulting in an expected **4,075,204 kilowatt hours of annualized energy savings**.

People Power

Each year, **300,000 of our employees and retirees** work to enhance their communities by taking part as AT&T Pioneers and volunteering millions of hours. In 2011, AT&T employees and retirees in Kansas donated **more than 43,000 hours of personal time** to community outreach activities—worth **more than \$956,000**.

Philanthropy

AT&T invests significant resources to advance education, strengthen communities and improve lives. Through philanthropic initiatives and collaboration, AT&T and the AT&T Foundation support projects that create opportunities, make connections and address community needs where we - and our customers - live and work.

From 2008 through 2011, AT&T and its employees contributed **approximately \$2.4 million** through corporate, employee and AT&T Foundation giving programs in Kansas.

Historically, supporting education has been a major focus for AT&T, and education today continues to be our key philanthropy focus. We are driven to help students succeed—in school, in the workforce and in life. In 2008, we launched AT&T Aspire, specifically focused on confronting the high school dropout crisis to help ensure that students graduate prepared for the future challenges of continuing education and the workforce. In 2012, AT&T renewed its commitment to Aspire with a **\$250 million investment planned over five years**. In Kansas, **\$411,628 has been invested through the Aspire program**. We also provided Job Shadow opportunities for nearly **300 students** in Kansas in 2011, teaming them up with employees to help them learn the educational background and skills they need to succeed on the job.

Connect. Communicate. Contribute.
