

National Health Care Challenges: Key Environmental Drivers

- Unsustainable growth in cost of care
- Aging baby boomers
- Population health status
- Evolving business models
- Sequestration
- Medicaid Expansion
- Managed Medicaid

The ACA Medicaid Expansion Fills Current Gaps in Coverage

NOTE: The June 2012 Supreme Court decision in *National Federation of Independent Business v. Sebelius* maintained the Medicaid expansion, but limited the Secretary's authority to enforce it, effectively making the expansion optional for states. 138% FPL = \$15,856 for an individual and \$26,951 for a family of three in 2013.
