

My name is Norman E. Mannel

I support Senate Bill 167

I am a CHILD SEX ABUSE VICTIM, as I understand Kansas Statutes, time limit is the "issue", too take legal action.

A young victim does not understand the time limit issue. If they are threatened, "THEY" will say nothing. "FEAR" is a very powerful weapon. "Repressed memory" can last a lifetime. They will not "speak out", until something "triggers" their memory. In the interest of fairness, justice, the "courts" have "reversed" decisions. Change is good!! Time should not be an issue.

It's a "HORRENDOUS" issue for the victim, especially, when the victim has contact with the "person" who committed this abuse. Victims have "killed" themselves because they thought "THEY" had done wrong. We should not wait until the "next century" too "Right, a Wrong!!" Isn't someone's "Civil Rights being denied, Due Process."

"It's like a bid is being held on a volcano". It ranks right up there with "murder", but the "quietly" is never brought too "Justice"!! It's a "Trajectory of Justice."

(OVER)

Senate bill should have the Statutes
of limits for "civil action" to be amended
also. That is, no time limit also, too
take civil action. legal action
