Aaron Dunkel, Deputy Secretary

Our vision is 'healthy Kansans living in safe and sustainable environments'.

What is Health Information Exchange?

- **A system for exchanging electronic patient records across a network**
- **Provides patient information at the point of care**
- **Protects the confidentiality, privacy and security of the information that is transmitted**

**Our vision is 'healthy Kansans living in safe and sustainable environments'.
The state belongs to all of us - "Kansas Don't Spoil It"**

Why Health Information Exchange?

- Access to more accurate information
- Improved care outcomes
- Lifetime health records
- Improved coordination of care
- Faster access to diagnostic results
- More secure sharing of data

ONC Funding

- HITECH Act was the source
 - 3 funding streams identified to help in removing barriers to the implementation of EHRs and HIEs
 - \$643 million for the establishment and operation of Regional Centers (RC)
 - \$564 million in State HIE development
 - Provided \$17.0 billion for incentive payments to providers that can achieve meaningful use related to EHRs and HIEs
 - Available through the Medicaid and Medicare programs directly to providers
- Aimed at incentivizing states and eligible providers to adopt electronic health records and health information exchange technology
- Reinvigorated discussion in Kansas
- Required state plan that would address adoption and achieving “meaningful use” of the technologies
