The Honorable Kasha Kelley, Chairperson  
House Committee on Education  
Statehouse, Room 151-S  
Topeka, Kansas 66612

Dear Representative Kelley:

SUBJECT: Fiscal Note for HB 2521 by House Committee on Federal and State Affairs

In accordance with KSA 75-3715a, the following fiscal note concerning HB 2521 is respectfully submitted to your committee.

HB 2521 would require that whenever a child is enrolled in a public school for the first time, the local school board of the school would be required to request presentation of proof of lawful presence in the United States. Each district would be required to submit an annual report to the State Board of Education on the number of children who are enrolled in the school district, but who failed to provide proof of lawful presence.

The Department of Education would be required to publish annually on the internet an amount equal to the product of the total number of children enrolled in all school districts who failed to provide proof of lawful presence and the "statewide average amount per pupil (SAAPP)." SAAPP would be defined as the computation of adding the statewide general fund budgets and the statewide local option budgets for the preceding school year and dividing that amount by the preceding year statewide enrollment.

According to the Kansas Department of Education, enactment of HB 2521 would require programming changes to the agency's Kansas Individual Data on Students (KIDS) system, which would cost approximately \$3,000, all from the State General Fund. Any fiscal effect associated with this bill is not reflected in *The FY 2015 Governor's Budget Report*.

Sincerely,
