

SESSION OF 2014

**SUPPLEMENTAL NOTE ON SENATE BILL NO. 346**

As Amended by Senate Committee on Federal  
and State Affairs

**Brief\***

SB 346, as amended, would raise from 15,000 to 30,000 barrels of domestic beer that may be produced in a calendar year by a Kansas microbrewery licensee.

**Background**

The bill, as introduced, would have raised the maximum allowable domestic beer production by a Kansas microbrewery licensee from 15,000 to 60,000 barrels. Currently, Kansas has four licensed microbreweries annually producing between 1,000 and 10,000 barrels of domestic beer per year. None currently produces over 10,000 barrels.

Proponents for the bill in the Senate Committee on Federal and State Affairs included representatives of the Kansas Department of Agriculture, the Kansas Craft Brewers Guild, and Free State Brewing Company. Written testimony supporting the bill was submitted by the the High Noon Saloon and Brewery and by the Tallgrass Brewing Company .

Neutral testimony was presented by a representative of the Kansas Wine and Spirits Wholesalers.

Opposing the bill was a representative of the Kansas Beer Wholesalers Association.

---

\*Supplemental notes are prepared by the Legislative Research Department and do not express legislative intent. The supplemental note and fiscal note for this bill may be accessed on the Internet at <http://www.kslegislature.org>

The Senate Committee amended the bill by reducing the new proposed production limit for domestic beer from 60,000 to 30,000 barrels and by clarifying the period of time referred to a calendar year for a production limit. The bill, as introduced, used an obsolete reference to a license year period, which in current law would be a two-year licensing period, not one calendar year.

The fiscal note provided by the Division of the Budget stated the Department of Revenue indicates the bill, as introduced, would have no fiscal effect on state revenues, unless there would be an increase liquor tax receipts if additional barrels of domestic beer were manufactured and sold by microbreweries. No fiscal noted was available for the bill as amended.
