

65-34,100. Kansas storage tank act; statement of legislative findings. The legislature finds that:

(a) Protection of the environment of this state promotes the health and general welfare of the citizens of this state; and

(b) the state's responsibility to promote the public health and welfare requires a comprehensive approach to protect the environment by preventing and remedying the pollution of the state's natural resources and providing funding of the management, conservation and development of those resources.

History: L. 1989, ch. 186, § 1; May 18.
