

2016 Kansas Statutes

72-7536. School district internet-based data reporting system. (a) The purpose of this section is to allow any person desiring to obtain, analyze and compare financial and performance data of school districts the ability to do so.

(b) On or before December 31, 2005, the state board of education shall design and implement a uniform system of reporting of such data by school districts. Such system shall be an internet-based data reporting system which is freely available and accessible. Such system shall allow a person to search and manipulate the data and allow for the comparison of data on a district by district basis. Such system may be designed so that school districts may input directly the district's financial and performance data in lieu of reporting data to the state board.
