Importance: High

Representative Jennings and Mr. Gallimore;

“KDOC for the recidivism rate for offenders required to register for drug offenses as compared to the overall KDOC felony recidivism rate”

The current overall recidivism rate for KDOC adult facilities is 35.97%

The current recidivism rate for those that have to register as Drug Offenders is 37.3% for the same time frame (36 months)

Please let me know if I you need anything else

Liz Rice [KDOC]

Additional information concerning this group

Of the 319 in the target population 119 returned to prison within 36 months

the average time on release prior to return to prison was 13.79 months

45 returned with a new sentence with an average time prior to return of 18.1 months

74 returned due to violation of supervised release (technical violations) with an average time prior to return of 11.17 months

Of the 45 new sentences 6 were for failure to register, 10 possession of opiates, 10 for sale or distribution of drugs, the remaining were various unrelated offenses.

For those 6 returned for failure to register as their most serious crime the average time on release prior to return was 17.41 months
