

Paul Jefferson Opposition to HB 2220

I am writing in opposition of HB 2220, which would prohibit universities from prohibit guns on campus. I am a 56 year old student with cerebral palsy. I take a physical education class each semester. I am concerned about guns on campus. I use the locker room to dress for my class. I often am alone at bus stops. I use the computers on campus. I do not want to be concerned for my safety while on campus.. I urge you to reject HB 2220 and allow universities to ban guns on campus.
