To: Senate Commerce Committee Chair and Committee Members:

Re: Senate Bill 212

We ask that you vote no on Senate Bill 212.

On March 13, 2017 US President Donald Trump signed Executive Order requiring all agencies get rid of excessive regulations and government programs.

We ask that you sit on the bill for one year and give President Donald Trump's administration time to show us the deregulation.

Crossland employees 1,500 employees and 10,000 sub-contractors which work in all 50 states. This new bill would be a wild card for Crossland. One rule for Kansas and another rule for the rest of the states.

Limited resources for the State shouldn't be spent on a State OSHA. Most states who implement a State OSHA end up costing more money than it brings in.

Sincerely,

Doug Westervelt  
Safety Director
