Testimony

I would like to say thank you to the committee for allowing me the opportunity to speak in support of HB 2516.

In the summer of 2017, I began working with Children's organizations and animal groups. Statistics show that there truly is a need for this legislation. Our communities need to have protection for making a choice that saves a life. I encourage your support and will stand for questions at the appropriate time.

Representative Shelee Brim
District 39
