

SESSION OF 2017

**SUPPLEMENTAL NOTE ON HOUSE BILL NO. 2234**

As Amended by House Committee on Judiciary

**Brief\***

HB 2234, as amended, would amend a statute regarding infectious disease testing of certain alleged offenders or persons arrested and charged with a crime to require such testing occur within 48 hours after the alleged offender appears before a magistrate following arrest. The bill would also require the court to order the arrested person to submit to follow-up tests for infectious diseases as medically appropriate. Finally, the bill would clarify that the results of such tests are to be disclosed to the victim and parent or legal guardian of the victim.

**Background**

The bill was introduced by the House Committee on Judiciary at the request of the Governor's Grants Program. In the House Committee, the attorney for the Governor's Grants Program testified in support of the bill, stating the federal administrators of the Grants to Encourage Arrest Policies and Enforcement of Protection Orders Program has indicated Kansas could lose \$45,000 in grant funding unless the bill was enacted. The attorney also requested an amendment regarding notification of the victim and parent or legal guardian of the victim, to fully comply with the federal requirements. Written-only testimony supporting the bill was received from the administrator of the Governor's Grants Program, the Kansas County and District Attorneys Association, the Kansas Coalition Against Sexual and Domestic Violence, and the Kansas Department of Health and Environment. No opponent or neutral testimony was provided.
