Re: HB 2601

Dear Education Committee Members,

As a father and citizen of Kansas, please consider this letter in support of the Bill HB 2601. Freedom is of utmost importance to me and HB 2601 will allow medical freedom to be preserved. Our elected officials exist to ensure that the people are represented appropriately, so I am writing to be sure that the opinions of the people within the state are understood.

I am grateful to be living with my family in the great state of Kansas but will be forced to relocate if such freedom, like medical freedom, is taken away. I pray that I am not forced to make that choice. Please consider passing HB 2601 and preserve our medical freedom, for my family and many more, in Kansas.

Jack Belcher  
Leavenworth County, KS
