Re: HB 2601

Dear Education Committee Members,

I am writing to you to ask you to support Representative Huebert's bill HB2601. As a Kansan, I am against any vaccine mandates and against letting a biased agency like KDHE which takes money from companies who profit from dispensing and pushing their products. Mandating vaccines violates the religious freedoms that I am guaranteed in the United States of America. Last I knew we had freedoms but they are slowly being stripped from the constitution. I simply want freedom of choice with my right to research what, when and how often I should and shouldn't put whatever, including vaccines in my body.

Sincerely,

Julie Clinesmith
