

# CBD American Shaman Derby

To whom it May Concern;

1/25/2020

Hello, my name is Jeff Zimmerman. I own two American Shaman Franchises in the Wichita, Kansas Area. I have been in business for 2 years now. We offer American Shaman CBD products and also offer a plant product called *Mitragyna Speciosa*.

As you all may know, *Mitragyna Speciosa* is also referred to as Kratom. This plant is native to South East Asia. This plant has been used in this region for Thousands of years.

I have had many customers that have claimed that Kratom has saved their life. But, the testimonies that I receive in little Derby Kansas pale in comparison into all the testimonies from Kratom users across the globe. have customers that are using Kratom for conditions such as

fatigue, depression, and pain management. When the reality of the Opioid Epidemic is staring us in the face, there is no room for error in regards to the Legalization of Mitragyna Speciosa.

Kansas has taken responsible positive action in regards to the legalization of Kratom. We need to remain in the forefront of providing healthy options for our constituents to deal with pain.

Respectfully,

Jeff Zimmerman
