

State of Kansas
Senate Chamber

Randall Hardy
Senator, 24th District

9 March 2020

Transportation Committee
Proponent Testimony SB 315

Dear Committee:

I support SB 315, a distinctive license plate bill benefiting the Love, Chloe Foundation (LCF). LCF is a Salina-based foundation that helps children with cancer. The foundation raises funds to support a wonderful program for children missing school due to cancer, There's a Monkey In My Chair. LCF provides financial assistance to Kansas families and works to raise awareness about childhood cancer. The foundation also funds groundbreaking research to find a cure for childhood cancer.

The plate will add a revenue stream for the LCF and make the travelling public aware of the good work the foundation does. I hope that you will support this worthy cause.

Sincerely,

Randall Hardy
