

It is with burning passion and a broken heart that I stand before you today to tell Kristin's Story.

Kristin was married for 13 years to Randy Gile. They shared 6 beautiful children. Kristin fought for years for safety and for her voice to be heard. In her previous PFA orders she filed she explains, he is control, I am not allowed a job, and at one point he was on top of her with his hands over mouth. Her most recent call was in September 2018. She reported Randy pointed a gun at her and her children and threatened to take their lives. He also displayed to her 2 AK47s, 2 automatics and a rifle. He was charged with felony assault and arrested. 3 guns were also seized at this time. It took Randy 1 day to post a \$25,000 bond; he only needed \$2,500 to be released. Upon his release law enforcement let Kristin know that they are looking for Randy to arrest him for a PFA violation. Oct. 4 a hearing was set for the PFA violation and at that time Kristin was told they would have Randy arrested no later then Oct. 5. Unknown to most his brother rented a rental car for Randy. As Kristin and her father loaded her belongings to move to her parents they were unaware Randy was following them in the unknown car. Randy was also in possession of meth and two firearms. On Oct. 6 Kristin was killed. Randy followed Kristin and her father to a small town called Derby, Ks. On a busy well-known road Randy shot at and ran Rick Florio off the road. Rick is Kristin's father; he tried to save her life, as his truck was left with 13-bullet holes. Rick also suffered multiple gunshot wounds, as did Kristin. Kristin had a total of 4 entry points from a bullet; the first was a fatal gunshot wound to the bridge of her nose. She also had a wound on her lower left back, left buttocks, and left thigh. Randy ended Kristin's life 8 minutes from her parent's home before he took his own. They leave behind 6 young children ages 3 to 12. I believe if Kristin had communication, time, and distance 6 children would not be motherless today.

In Kristin's name lets save others.
