

01/13/2019

Dear Legislators:

As a member of the Gold Wing Road Riders Association, an organization that encourages rider education and safe riding, I would like to express an opinion. I feel that it is important for you to pass legislation that would close loopholes in the "M" endorsement on drivers licenses. At this time, it is too easy to not have the endorsement and still ride a motorcycle on the streets and roads of Kansas. Closing these loopholes should encourage motorcycle riders to attend rider education schools as the easiest way to get the "M" endorsement. The more education motorcycle riders have, the safer the riders become.

With safer riders, we should see the accident statistics decrease. This would help us all.

Thank You
